01 — THE PROBLEM

Not a listing problem. An intelligence problem.

Africa doesn't lack property portals. It lacks **the truth around them — before money moves.**

01
Is this listing real?
Duplicates and ghost sellers.

02
Is the seller verified?
Owners and agents unchecked.

03
Is the price fair?
No comparable sales.

04
What will it earn?
Demand and yield: guesswork.

05
Will it be delivered?
Developer records invisible.

06
Is the deal safe?
Titles and payments unchecked.

02 — THE SOLUTION

The Keja Property Intelligence Score.

One number for every property — computed from **eleven dimensions** of verified, sourced and weighted intelligence.

THE ELEVEN DIMENSIONS

1 Identity verification	2 Location confidence	3 Price benchmark
4 Rental demand	5 Rental economics	6 Developer record
7 Completion status	8 Amenities & infra	9 Market indicators
10 Liquidity	11 Data confidence	

EVERY DIMENSION SOURCED · WEIGHTED · SCORED · LIVE

A KSh 25M decision should never be a guess.

03 — THE PRODUCT

Every property gets a Passport.

A digital identity for every listing — verified fields, pricing truth, rental economics and developer track record.
