WHY WE EXIST

Buying a home shouldn’t feel like a leap of faith.

Is the listing real?
Duplicates and phantom units are routine.

Is the price fair?
No benchmarks — only asking prices.

Is my money safe?
Unverified titles, unsafe transfers.

The market doesn’t lack listings. **It lacks truth.**

THE PLATFORM

KEJA AI

The intelligence & transaction layer for African real estate.

Keja AI verifies, scores and connects every side of a property deal — buyers, sellers, agents, developers and lenders — on one platform. Ask in plain language; get properties that answer back with proof.

THE INTELLIGENCE LAYER FOR AFRICAN REAL ESTATE

01 — THE PROBLEM

Not a listing problem. An intelligence problem.

Africa doesn't lack property portals. It lacks the truth around them — before money moves.

01 Is this listing real?
Duplicates and ghost sellers are routine.

02 Is the seller verified?
Owners and agents are rarely identity-checked.

03 Is the price fair?
No comparable sales. Just asking prices.

04 What will it earn?
Rental demand and yield are guesswork.

05 Will it be delivered?
Developer track records stay invisible.

06 Is the deal safe?
Titles, documents and payments go unchecked.

Every question on this panel is answerable.

That is the business.

02 — THE SOLUTION

The Keja Property Intelligence Score.

One number for every property — computed from **11 dimensions** of verified intelligence:

1 Identity verification
2 Location confidence
3 Price benchmark
4 Rental demand
5 Rental economics
6 Developer record
7 Completion status
8 Amenities & infrastructure
9 Market indicators
10 Liquidity
11 Data confidence

EVERY DIMENSION SOURCED · WEIGHTED · SCORED · LIVE

A KSh 25M decision should

never be a guess.

03 — THE PRODUCT

Every property gets a Passport.
